

IN THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A plow vehicle comprising:

a frame;

a plow;

a bracket pivotally connected to said frame;

a lifting cylinder pivotally connected to the plow for lifting the plow with respect to the frame, said lifting cylinder having a pivot point connected to the plow and an opposite pivot point connected to said bracket and having a first axis allowing said lifting cylinder to rotate relative to said bracket; and

a rolling cylinder pivotally connected to the plow for tilting the plow with respect to the frame, said rolling cylinder having a pivot point connected to the plow and an opposite point connected to said bracket and having a second axis; and

a bracket pivotally connected to the frame;

wherein the lifting cylinder is fixedly connected to the bracket and the rolling cylinder is pivotally connected to the bracket

wherein said opposite point of said rolling cylinder and said opposite point of said lifting cylinder are rotatably secured to said bracket around said first and second axes; and

wherein the rolling cylinder can freely rotate relative to the bracket around said opposite pivot point of said lifting cylinder with displacement of said lifting cylinder.

2. (Original) The plow vehicle of claim 1, further comprising a rigid arm pivotally connected to the plow and pivotally connected to the frame.
